

# Explorance Blue and Workday®: Adding Campus Voice to Every Decision

An Explorance and Workday integration to combine feedback analytics with institutional data.

## Adding Feedback Analytics to Your Workday® Suite

Explorance helps higher education institutions capture and analyze feedback from students, faculty, and staff. By combining Explorance Feedback Analytics with your Workday® data, institutions can amplify the voice of their students, faculty, and staff to inform data-driven strategies that optimize teaching effectiveness, promote learning excellence, and elevate overall student success.

## Explorance Feedback Analytics Solutions

As a result of the Explorance and Workday® integration, administrators can seamlessly pull key institutional data from Workday® SIS, HRIS, and other solutions to keep evaluation and survey data accurate, up to date, and ready for use. Additionally, institutions can push feedback data back into Workday® solutions and reports, ensuring internal stakeholders have the necessary data to drive student success institution wide.

EXPLORANCE FOR HIGHER EDUCATION			EXPLORANCE FOR HUMAN RESOURCES
Teaching Effectiveness	Learning Excellence	Student Experience	Human Resources
Course Evaluation			Employee Surveys
Mid-Term Review Surveys			AI-powered Voice of the Employee
Peer Review			360-Degree Assessment
Self-Evaluation			Learning Effectiveness
	AI-powered Student Voice		
		Student Surveys	

# Integration Capabilities

## Connecting Data Silos

The integration of Explorance and Workday® offers a solution for educational institutions to foster cross-departmental collaboration and break down data silos institution wide. This integration empowers institutions to comprehensively measure and improve the student experience along the entire academic journey by centralizing feedback data through a single platform.

## Automating Data Hygiene

Guarantee the reliability of data by allowing Explorance solutions to automate and delegate the data preparation procedure. With a systematic process to validate key institutional data such as course dates, departments, and instructors, institutions can effortlessly launch surveys, evaluations, and other feedback initiatives with confidence.

## Driving Staff Engagement

Leverage an all-in-one survey platform for the entire campus, including staff, by connecting Explorance Feedback Analytics solutions to the Workday suite. Create, customize, and launch various employee feedback initiatives from 360-degree evaluations to pulse surveys, creating a culture of belonging and continuous improvement.

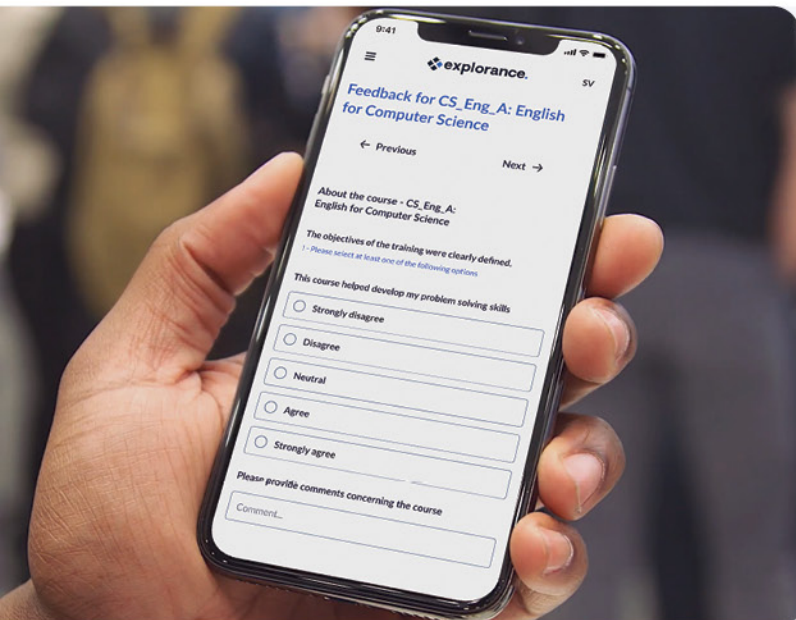

## Simplifying Survey Administration

Embrace simplicity without compromising quality by leveraging end-to-end automation to seamlessly push and pull data from Explorance and Workforce solutions. From survey set up to report distribution, this integration empowers institutions to get even more out of their Workforce data by enriching it with the student voice through Explorance Feedback Analytics.

## Reducing IT Reliance

Save time by spending less on data search and more on taking action. Empower administrators with the autonomy to easily retrieve data from all connected systems, reducing the workload on IT teams. This enables administrators to access relevant data instantly and make decisions quickly while eliminating roadblocks.
