

Fueling End-user Engagement in Course Evaluations: An Explorance and Canvas Integration

Seamless Integration to Drive Student Response Rates

Focused on helping institutions strengthen student engagement, Explorance Blue can embed its course evaluations directly into Canvas, creating a more convenient course evaluation experience for students, faculty, and administrators.

By embedding Explorance Blue course evaluations directly into Canvas, instructors can now reach every student where they already are. Students can seamlessly view, access, and complete course evaluations without leaving the Canvas portal, while administrators can customize and control various functionalities to drive response rates.

Empowering Student Success with Time-Saving Administrative Control

Leverage LTI 1.3 to easily customize and control various engagement functionalities for each course to promote student engagement and success, while saving time and administrative efforts.

Login Pop-up

When students log in to Canvas, courses with pending evaluations are displayed in a pop-up window.

Course Block

Achieve high response rates by activating a course block when there are pending evaluations.

Assignments

Course evaluations can be treated as Canvas assignments allowing points to be allocated to further drive participation.

Calendar

Assigned course evaluations will display as a link on the Canvas calendar on their due dates.

To-do List

When course evaluations are assigned, they are automatically added to students' to-do list on the user dashboard.

Announcements

New announcements are added for course evaluations as Explorance Blue leverages native Canvas functionality.

Engaging Faculty in the Course Evaluation Process

Improve faculty engagement in the course evaluation process by allowing them to easily view, monitor, and personalize evaluations to fit the unique needs of their course.

In-app Analytics

Monitor response rates in real-time, drill into summary charts, or view historical reports to understand when to jump in and help drive participation.

Personalization

Streamline faculty course evaluation tasks natively in Canvas and empower faculty members to tailor specific course evaluation questions for their own teaching and learning goals.

Explorance: An Instructure Partner

Explorance empowers institutions with next-generation feedback analytics to accelerate the insight-to-action cycle. As a collaborative partner, Explorance and Instructure aligns with institutions fostering a feedback culture, encouraging courageous conversations to drive purpose, impact, and growth.

Explorance Blue fully integrates with the Canvas environment to provide a seamless user experience to amplify user engagement and power data-driven decision-making.

Automating and accelerating success for 25M+ people every day.

Proud to support the world's leading institutions
